Service fees are payable in advance for additional supplies and services. Every year service fee payments are settled in the case of each address. This is done based on the actual fees that are charged over the calendar year. If the actual fees amount to less than any advance payments, the difference may be refunded.

Money will only be refunded if it amounts to more than €25,00 and one has stayed at a particular address for longer than three months. Information concerning the settlement of service fees will be published on our website, if one is entitled to a refund. Please contact Wolf Huisvestingsgroep.
